

The
Lying BORE

Spaceship LANDS NEAR LYONS

Pictured on the cover of this month's Lying Bore is an actual photograph of an object, believed to be a ship from outer space, which landed in a field owned by Mr. P.E. Davis, of Lyons, Georgia, on Friday morning, March 29th. The spaceship was discovered by a Mr. J.H. Collins

Lyons Hi Rid of Mice

At last, Lyons High School is rid of the mice that have been occupying the valuable space between the wallboards for the last fifty years. Since crowded conditions in the last year have made it imperative that this space be converted into classrooms, our janitor and teaching staff have been negotiating with the mice for their living quarters.

Sammy Squeaky, head spokesman, stated today that negotiations have been completed. The mice have decided to sell their homes for 10 pounds of mild cheese, and are intending to move to a church in the nearby town of Ochopee, Georgia.

The mice are planning to move on April 2nd, and a short farewell ceremony will be held tonight at 3 o'clock in the Lyons City Auditorium. All who would like to wish their friends goodbye are cordially invited to attend. Refreshments including milk and seven varieties of cheese, will be served.

who, still somewhat dazed by the experience, maintains that he went to Mr. Davis' field to go fishing. However, no evidence has yet been found of a pond or river in the Davis field.

Upon seeing the spaceship, Mr. Collins immediately ran to a house near by and telephoned one of our ace photographers. They arrived in time to photograph the spaceship, and some tracks left on the ground by its occupants, but were not able to get a glimpse of them before the ship took off, "With a great whirring sound and a brilliant flash of light," as Mr. Collins said.

Top government scientists have stated that the ship was definitely from outer space, and are hoping that the oddly shaped footprints will give them some clue as to which planet the ship came from. It remains to be seen whether the motive of our vistor's was peaceful, or not.

Do You Control Your → → Toes?

Your toes are instruments of enormous power. They direct your being and guide you along your daily path.

Do your toes often stray or go in opposite directions? Do they continually fuss and fight? Try a little soap and warm water. Maybe your little toe thought he was in an unsegregated shoe. Maybe one toe thought the little toe beside him belonged to a different race.

Now to get to the bottom of your problem. Wash your hair twice a week instead of once. Don't brush or comb it and use lard instead of Vitalis. If this "Sure Cure" doesn't seem to work, try red pepper to stop nail biting. Keep your cuticles cut and your nails pushed back. When washing your hands, don't use water (that harsh detergent that spoils your hands), but use alcohol for soothing relief of sore, aching muscles.

Sleep each night on the floor in front of an opened window. Remember, the common cold can't be cured, but pneumonia can.

If you're madly in love with your teacher, don't give up just because you think he is more intelligent—Remember, he never knows the answers, he always has to ask us brainy students.

Do your eyes burn after reading an exciting mystery? Try taking two aspirins each night before going to bed—that will usually rid you of that horrible stomach ache. Do you often find snakes in your bed? Try sleeping in the house for a change or, if you prefer the outside, stop using Wild Root Cream Oil "Charlie". Do you "break the camera" when your picture is taken? Try skunk syrup to run away those ugly corns.

Violets are red,

Roses are blue.

You're sweet,

and onions are too.

After you practice these cures, let me know if they work. Simply address your letters to: Post Office Box 2, Callamazoo, Pienkitank.

This concludes another article from your editor, Anastasiá Applesauce. So until next month, remember: The skull is connected to the spinal column, the spinal column is connected to the clavicle, the clavicle is connected to the scapula, the scapula is connected to the lamina, the lamina is connected to the rib, the rib is connected to the intervertebral joint, the intervertebral joint is connected to the sacrum, the sacrum is connected to the llium, the llium is connected to the pubis, the pubis is connected to the femur, the femur is connected to the upper leg, the upper leg is connected to the epicondyle, the epicondyle is connected to the lower leg, the lower leg is connected to the malleolus, the malleolus is connected to the os calcis, the os calcis is connected to the toes,—Oh—speaking of toes I almost forgot your problem—well, all I can say is....if you can't control them now at your age, you never will.

Goodbye and be sure to buy a paper.....after this one we may have to take a slight vacation, that is, if the principal gets a copy.

SPECIAL ¹⁴Notes To Teachers

To: All teachers on Staff of Lyons High School

Re: Standard procedure: Instructions on the Death of Teachers.

It has recently been brought to the attention of this office that many teachers have been dying, while on duty and for apparently no good reason at all; furthermore, the same teachers are refusing to fall over after they are dead.

THIS PRACTICE MUST STOP AT ONCE!

On or after April 6, 1957, any teacher found sitting up after he (or she) has died will be dropped from the payroll at once, without investigation. Where it can be proven that the employee is being held up by a desk which is the property of the school, a ninety day period of grace will be granted.

THE FOLLOWING PROCEDURE WILL BE ADHERED TO:

If, after several hours, it is noted that a teacher has not moved or changed position, the principal will investigate. Because of the highly sensitive nature of our teachers and the close resemblance between death and their natural working attitude, the investigation will be made quietly so as to prevent waking the teacher and students, if sleeping. If some doubt exists as to his true condition, extending a paycheck is a fine test. If the teacher doesn't reach for it, it may reasonably be assumed that he is dead. NOTE: In some cases the instinct is so strongly developed, however, that a spasmodic clutcher reflex action may occur. Be on the lookout for this action.

(Continued, top right)

(Continued from bottom, left)
DON'T LET THIS FOOL YOU!

In all cases, a sworn statement by the dead person must be filled out on a special form provided for this purpose. Fifteen copies will be made, three to be sent to Washington and two to the deceased. The others will be promptly stowed away in the office files, by Mrs. Edwards, never to be seen again.

Signed: *Paul C. Davis, Editor*

TEN TOP TUNES

1. Man on the Fleeing Moose
2. My Bonnet Lies Over on the table
3. I'm Loony When I'm Near You, What's Your Name?
4. Flight of the Horny Toad
5. Apaches on the War Path, Woo, Woo, woo

(Our tune editor has just suffered a loss of memory and cannot remember how to count to ten, so this is all for this month.)

A word to the wise:

Don't sit on tacks
Don't fall through cracks
Don't drown in lakes
Don't step on cakes.
(Especially those covered with marshmallow icing.)

Pat: Did you ever hear the joke about the monkey who climbed up the tree backwards?

Paul: No.

We didn't have anything to go in this space so it was left blank.

CLUBS n' CLASSES

SENIOR CLASS NEWS

The next project in view for the Senior Class is a Turtle Race. It will be held on April 2nd, beginning at one curb on mainstreet, across the railroad tracks, and ending at the other curb. Traffic will be held up by the police for 24 hours to ensure the complete safety of each contestant. Entrance examinations will be held to eliminate all snakes, ants, snails, etc. If you're interested in entering a contestant, or as a contestant, call the Senior Class President.

JUNIOR CLASS NEWS

The Junior Class has cleared \$2001 selling "hot canaries" at the Piggy Wiggled store and in front of the old cops' hang-out. They expected to make more, but the sudden snowstorms and the unexpected earthquake (which caused the loss of 5 or 6 Lyons High students and 2 or 3 teachers) caused a severe drop in business.

KEY CLUB

Lost a button on your best coat or dress? Call any member of the Key Club for immediate repair. The boys have decided to take in sewing for a project to help raise funds for a badly needed swing for their recreation center. They are capable of mending three cornered tears, but would rather confine their business to sewing on large buttons. Please help the Key Club boys out.

Why look here? Look at the top of the next column for more news.

JUNIORS GET HOLIDAY

Plans are well under way for the annual Junior-Senior banquet and dance, a gala affair staged by the Junior Class as a tribute to the Seniors. Since the decorations for this year are very elaborate, Mr. P. E. Davis, principal, plans to give the Juniors a two week vacation to work on them. The vacation will begin April 5th and last until April 19th.

"I do not think it will be necessary to have teachers supervise the Juniors, for I have great confidence in them. Instead, I'm going to see that each teacher who teaches only Juniors will also get a two week vacation," said our generous principal.

THREE FEET CLUB

This is a new club being formed in Lyons High School. We hope to have many members. In order to join, you must possess a yardstick or, if you already have two feet, a ruler will be sufficient. Sign up in the office if you wish to become a member.

DISCONTENTED?

Our roving reporter wanted to find out why the teachers of Lyons were so grouchy, so he confronted them with this question: "Why don't ya'll like school?" This is the answer he handed us: "We don't dislike school, it's just the principal of the thing!"

Now read another page.

BOYS WIN BASKETBALL TOURNAMENT

On March 20th, 1957, the boys of Lyons High School won the final game of the season by defeating Vidalia 56-46. Vidalia was ahead of Lyons 5 points at the end of the third quarter, but with the fast work of the Bulldogs they edged on ahead of the Indians.

Members of the team were:

FORWARDS	GUARDS
Jean Phillips	FRED ALEXANDER
Miriam Smith	Peggy Raulins
Elain George	Ronnie Smith
Joyce Kight	Mary Sue Page
Kay Dickerson	Dorothy McCumber
Joanne Wilson	Frances Cooper

LYONS BASEBALL TEAM LOSES

The Lyons Baseball team lost 10-0 against Glenwood, Friday, March 25th, 1957. This is the first year Lyons has even had such a team. It is the worst in the history of the school. Each boy on the team weighs less than 105 lbs. even with his uniform on! Just hope the boys win one game (if they don't have to go to the hospital first.)

NOTICE

Teachers are warning all students who are planning to go on to college: "Don't!"

SEMESTER EXAMS

Since everyone failed the Semester exams, our principal, Mr. Davis, has said that they will have to be taken again. Each one will be four hours long.

Forget: Don't exam for crams!
Be study and wise!

i Think - READ - Laugh!

NOTES FROM NOSEY

ODDS'n ENDS

Nothing is heard from the eighth grade girls anymore. Wonder what they are doing for entertainment??

Has Linda H. forsaken her old stanby "Reidsville" or has she now come back to Lyons???

Jimmy C. will come out of hibernation now, since Spring football practice is over.

KEYHOLE KAPERS

Wonder why George F. is all smiles lately???? Maybe he's happy about something important.

What is this about Buster B. and Yvonne Y. breaking up????????? Could someone be interfering???

Billy B. got his red chevy in a wreck Saturday. Only the front and side got bent up though. You know him though, he is so fast, he got it fixed in just one hour. Yes the news will spread.

Does Mt. Vernon still hold Carolyn M.'s interest???? It seems like it.

Everyone hopes that Marion G. doesn't start trying to experiment with his car the night of the Junior-Senior Prom.

One day a hobo was walking through a town looking for something to eat. He came to a window where three pies were cooling, so he took one. Just as he was about to bite into it, he was spied by a policeman.

(Since this joke is too long to print here, it will be continued in next April's issue.)

Don't let those annoying Georgia-gnats spoil your summer-----get a genuine Asphyxiating gas mask. Asphyxiating is the only gas mask that's absolutely guaranteed to keep out all flies, gnats, wasps, lizards, and frogs. For your best bet and best buy, choose Asphyxiating.

Always worrying about making lots of mistakes on homework papers? Get Skippy Invisible Ink-----then your teacher won't see them.

Are your glasses always getting dirty? Use an Ellum glass cutter to remove the lenses-----then it won't bother you.

Jane: What color is red?
Jack: Red.

The average girl walks on air as soon as she gets engaged, and waits until after the marriage to put her foot down.

The staff of The Lyons Roar wishes to take this opportunity to say that we are not responsible for anything you may have read in The Lying Bore.

We sincerely believe that we have a wonderful school, and we are truly proud of it.

STAFF

Did you believe these things you read in this paper about our school?
